**Magnat Quantum 657**  
**Test result: very good**

## Finesse in abundance...

### Test result:

When I hear the Quantum 657 from Magnat, the following saying comes to my mind time and time again:

"Calmness is the cradle of power" - an image that reflects the superior, finely graded dynamic playback really well. These speakers have been clearly developed and coordinated using the best ingredients and a significant degree of finesse. This is high-end equipment at a low cost, which results in the coveted i-fidelity.net "Price Tip" award.

*Ready made parts not required: Magnat's developers relied on reputable measuring technology and their ears when designing the chassis.*
